

Procurement Services

We are known as “The Shutdown Specialists”.

Cebeco is a leading industrial Procurement Services business sourcing products from a range of domestic and international suppliers. The business has served the mining, oil and gas, petrochemical and general industries since 1971 and has built a reputation for its service. We stand behind our business because of the extensive product knowledge and experience of our technical buyers.

There are three reasons we are preferred by our customers:

1. Our supply chain allows us to procure many products at discounts that our customers are unable to achieve.
2. Our service commitment means our delivery times are faster than customers achieve through in-house channels.
3. Our breadth of technical knowledge allows us to secure 'hard-to-find' products quickly.

We have a rapport with various OEM's that enable us to respond to your enquiries very quickly. We direct source and expedite the goods using our people located geographically (the US, UK, Europe and Korea) where the materials and equipment are manufactured. We manage all required QA, documentation, inspection, freight forwarding, customs clearance and delivery into your store.

Welcome to Cebeco

We are one of Australia's leading suppliers of engineering products. We specialise in the oil and gas, petrochemical, process and mining industries. We supply Jerguson level gauges, Clark Reliance boiler instrumentation, Protectoseal flame arresters, Elfab bursting discs rupture discs and bursting panels rupture panels, Jacoby Tarbox eductors, Ulbrec strainers, Anderson filters and many more products from some of the world's leading suppliers.

Our customers include some of Australia's leading industrial businesses.

LEVEL GAUGES

Jerguson® offers the world's largest selection of liquid level gauge glasses, magnetic level gauges, liquid level switches, transmitters and accessories. This wide array of products assures you that solutions are based on your needs, not on what is available.

BOILER INSTRUMENTATION

Clark Reliance is the global leader in boiler instrumentation for the power generation and steam producing industries. We offer the most comprehensive line of products in the industry covering direct and indirect (remote) indicators, water columns, magnetic level gauges, float and probe switches and control systems.

Simplipoint

Elecrolev

FILTERS, SEPARATORS & STRAINERS

Anderson Separator is a leading supplier of filtration and process equipment for natural gas production and transmission, power generation and general process applications. Anderson offers a broad variety of mechanical separators including Vane Type, Multi-Cyclone, Centrifugal and Filter.

Filter

Y Strainer

Cebeco offers Australia's broadest range of strainers including basket, cone, "Y" and "T" strainers manufactured right here in Australia.

TANK PROTECTION

Protectoseal is the leading global manufacturer of vapour and flame control equipment for storage tanks. Since inception in 1925, Protectoseal has manufactured the highest quality products with a continuing commitment to "Safety Without Compromise".

Pressure Vacuum Vent

Flame Arrester

Blanketing Valve

EDUCTORS

Cebeco offers a broad range of venturi products including eductors, tank liquid agitators, compressors, thermocompressors, gas scrubbers and desuperheaters.

Eductor

Thermocompressor

Gas Scrubber

Desuperheater

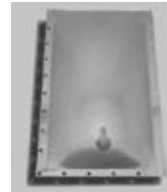

BURSTING DISCS

Cebeco supplies a range of rupture disks, bursting disks, rupture panels, burst panels and sensors.

Bursting Disc

Rupture Panel

VALVES

Schuf Fetterolf supplies a range of specialty valves and cam-set line blinds.

Samshin supplies valves...

Blackhall supplies valves...

PROCESS MONITORING

Murphy has an extensive range of instruments to monitor the pressure, temperature, vibration and level of your process.

GAS DETECTION

Crowcon manufacture a complete range of both fixed and portable gas detection equipment for personal and plant protection against gas hazards across the globe. Based on a solid foundation of expertise in understanding of the core physics and chemistry of gas detection, Crowcon works closely with international bodies to ensure products are designed to industry leading equipment certification and performance standards.

Portable Gas Detector

Flame Detector

HAZARDOUS AREA PRODUCTS

Cooper Crouse-Hinds is the electrical industry's leader for hazardous environments. Cooper Crouse-Hinds integrates a comprehensive line of electrical and instrumentation products with expert support, industry insights and local availability to enhance safety and productivity in the most demanding industrial and commercial environments worldwide.

Cebeco offers hazardous area lighting and enclosures.
