Capability Information

Main Business Activities and Industries Served

Cebeco has been supplying Instrumentation to the Oil & Gas, Process, Powerstation and Mining industries since 1971. We currently offer a diverse portfolio of products and services.

We specialise in the supply, maintenance and servicing of instrumentation and engineering products. Cebeco's extensive range of capabilities enables our customers to maintain their aging plants, generate cost savings or invest in new capital projects to improve their performance.

Our headquarters are in Sydney, New South Wales, and we have two interstate offices in Brisbane, Queensland and Perth, Western Australia. We employ a team of highly skilled and experienced engineers to ensure that we have the right technical solution to satisfy our customer's requirements.

The current Cebeco footprint is as follows:

Our primary goal is customer satisfaction achieved through engineering expertise, highly capable employees and commitment to service.

Engineering Products

We have six areas of activity within Cebeco:

PRESSURE: Pressure relieving and control equipment

- Pressure safety and pressure relief valves
- Bursting discs and panels
- Tank vents
- Pressure regulators, pressure reducers and controllers

FLOW: Valves and related equipment

- Control valves
- High pressure / high temperature slurry valves
- Powerstation valves
- Diverter valves
- In-tank emergency shut-off valves
- Bottom outlet and sampling valves
- Injection valves
- Strainers
- Sight flow indicators
- Eductors, venturis, ejectors, scrubbers, thermocompressors, desuperheaters and agitators

SAFETY PRODUCTS: Gas detection equipment and other

- Portable gas detectors
- Fixed gas detection systems
- Calibration gases
- Calibration services
- Flame and detonation arresters
- Hazardous area electrical equipment

LEVEL: Level instrumentation

- Tubular and armoured glass gauges
- Magnetic level gauges
- Boiler instrumentation
- Floats and switches

ENGINEERED PRODUCTS: Bespoke Design and Fabrication

- Pipe spools
- Radar chambers
- Bespoke Design and Fabrication
- Steels, stainless steel and specialty alloy materials

PROCUREMENT SERVICES: Outsourced Procurement Activities

Cebeco sources and supplies a wide range of products to best suit the needs of our customers, based on price, delivery or technical requirements.

We source and supply for a variety of customers. The key reasons that we are preferred by our customers are:

- Our supply chain allows us to procure many products at discounts that our customers are unable to achieve. We can then pass these discounts on to our customers.
- Our service commitment means that our delivery times are faster than customers achieve through in-house channels.
- Our breadth of technical knowledge allows us to solve problems and secure 'hard-to-find' replacement products quickly.
- We have built strong relationships with key manufacturers in the USA, Europe, Korea and Japan over the last 40 years.

We supply full documentation that includes material certification, pressure test and non-destructive examination reports and photographs. We send in inspectors where required.

Representation

We represent the following manufacturers in the Australian market:

TAI MILANO. Pressure safety valves and changeover valves. Manufacturing near Milan, Italy since 1959.

PROTECTOSEAL. Tank venting, tank blanketing, flame and detonation arresters, tank fittings. Manufacturing in Chicago, USA since 1925. The inventor of the flash arrester.

DONADON. Bursting discs, panels and indicators. Manufacturing in Milan, Italy since 1950.

SCHUF FETTEROLF. Valves that control, isolate, divert, or sample gases, liquids, slurries or powders. Manufacturing since 1911 in Germany and now manufacturing in Ireland, USA, UK, India and Italy.

SAMSHIN. Powerstation, steam and cryogenic valves. Manufacturing in Korea since 1966.

JACOBY TARBOX. World leader in sight flow indicators, sight windows and eductors since 1911. Manufacturing in Cleveland, USA.

SCHUTTE & KOERTING. Eductors, venturis, ejectors, scrubbers, thermocompressors, desuperheaters and agitators. Manufacturing in Pennsylvania, USA since 1876.

ULBREC. Basket strainers, Y-strainers, T-strainers, simplex and duplex strainers, automatic backwash strainers and filters. Manufacturing in Melbourne, Australia since the 1950's.

JERGUSON. World leader in level indication and control products since 1905. Manufacturing in Cleveland, USA.

CLARK RELIANCE. World leader in boiler-trim instrumentation and controls since 1884. Manufacturing in Cleveland, USA.

MURPHY. Controllers, gauges, sensors and switches since 1939. Manufacturing in the USA, UK and China.

CROWCON. Fixed and portable gas detection. Manufacturing in Abingdon UK since 1970.

COOPER CROUSE HINDS. Hazardous area electrical equipment including lighting and junction boxes since 1897. Manufacturing in Sydney, Australia.

HSEQ Management Systems

Safety & Quality Management Systems

Cebeco at all times strives to maintain and improve the quality of its products and services in relation to the requirements of its clients, employees and stakeholders.

Cebeco is accredited under ISO9001. Annual audits are carried out by QAS International.

We have very high supply accuracy and experience very low warranty claims. We have processes in place to record and action all customer complaints, non-conformances and warranty claims. All inquests are reviewed at Management Review Meetings and trends are analysed.

Quality Management System

Our Quality Management System (QMS) complies with:

- Client specifications;
- Relevant standards and industry specifications as required;
- Full documentation (i.e. certificates)
- Full material traceability
- Supply accuracy
- DIFOT (Delivery In Full On Time)

Environmental Management System

Cebeco has an environmental management system in place to manage those environmental aspects which the organisation has control over. We ensure that our operational activities minimise the environmental impact.
